ATEK Medical Hires for Director of Demand Planning and Materials Management
New position will be responsible for all global core functional planning processes

GRAND RAPIDS, MICH. (May 21, 2008) – [ATEK Medical](http://www.atekmedical.com), a division of [ATEK Companies](http://www.atekcompanies.com), has hired Steven Naldi as Director of Demand Planning and Materials Management. In this position, Naldi will be responsible for providing global process ownership for demand planning, freight, and inventory control for the Grand Rapids and Costa Rica locations.

“We are always looking for opportunities to refine our processes in order to provide the highest quality medical devices to our clients. Steven’s years of experience and leadership skills in materials management will further strengthen our commitment to be a world class leader in medical device manufacturing” said Chris Oleksy, president, ATEK Medical.

Naldi brings to ATEK over a decade of manufacturing experience with Boston Scientific, holding various positions in management, manufacturing, and planning. For the past eleven years he has held positions at Boston Scientific with the most recent of Operations Manager at the Spencer, Indiana location. Naldi holds numerous certifications through his years of experience in the medical manufacturing industry and is very active with the American Heart Association.
